Counselling and Career Development Centre (CCDC)

COUNSELLING CELL

Submitted By:
Dr. Monica Sharma
Coordinator

Name of the Cell - Counselling and Career Development Centre (CCDC)

Objective/Role of the Cell - The Counselling and Career Development Centre (CCDC), IIS (Deemed to be University, Jaipur) is an endeavor of the Department of Psychology which started as a small initiative in the year 2013. A multitude of activities are planned by the Centre all-round the year to fulfill its goals. Full time counselling service is available for students as well as for staff members of the university, which includes career and vocational counselling, emotional and behavioral counselling, psychological testing and profiling. The Centre also provides training/internship for students of psychology and related disciplines and also COSD course in counselling & guidance.

The Centre was established to fulfill the following goals:

- Psychometric testing and Career Profiling
- Emotional and Behavioral Counselling
- Group Counselling
- Vocational guidance
- Life Skills coaching
- Mental Health Awareness Programmes
- Organizes regular Workshops and Seminars/Webinars in the field of Mental Health and Career Counselling
- Teaching and Research

Title of the event: Open House at IISU for promotion of Admissions

Type of Event: Activity

Date: 30th July, 2024

Venue: A. V Hall & Srijan Hall

Resource Persons:

- Dr. Monica Sharma Associate Professor, Head Department of Clinical Psychology
- Ms. Nidhi Goyal, Counsellor

Objective of the Activity: Psychometric testing for career counselling of Graduation or Post graduation students for further career milestones

Summary/Description: An Open House was successfully organized by the IIS (deemed to be University), Jaipur on 30th July, 2024, with the objective of offering career counselling and guidance to students and their parents. The event served as a valuable platform to bridge the gap between academic aspiration and career planning. The program witnessed active participants from a large number of students and their guardians. The University faculty members conducted interactive sessions to provide comprehensive career counselling, aiming to help attendees understand various academic streams. After this briefing, the psychometric testing was done.

Outcome of the Activity: This has resulted in an overwhelming response from students and has generated many enquiries for admission. gained knowledge about career testing conduction and how this helps in guiding students in their career path. The student was very enthusiastic and easily grasped a wide amount of information. They were keen to learn and understand new things.

Title of the event: Counselling Awareness Activity

Type of Event: Activity

Date: 23rd August, 2024

Venue: IIS (deemed to be University) Campus

No. of Participants: PDCP Trainees (2024-25)

No. of Beneficiaries: All University Students

Objective of the Activity:

- Creating awareness about Counselling and its benefits
- To remove any doubts and stigma related to counselling
- Services provided by the Counselling Cell

Summary/Description:

A Counselling Awareness activity was organized on 23rd August, 2024 by the Counselling and Career Development Centre (CCDC) in collaboration with the Department of Clinical Psychology. The trainees of Professional Diploma in Clinical Psychology (PDCP) the Sessions 2024-25 participated as volunteers. The activity was organized for all the students of the University wherein the trainees interacted with the students. During this activity the trainees went to different classes, canteens, college grounds, library and other areas of the University and they oriented students about the active presence of Counselling and Career Development Centre and how they can benefit from the same during their stay at the University. The students were also oriented about the kind of counselling services it provides. The trainees also informed the students about the faculty and their professional background. Further the students were explained briefly about what is counselling and how taking professional help can benefit them in different spheres of life. They also removed any doubts if the students had any. Along with orienting and imparting information, the trainees also pinned Counselling Awareness and Counselling Cell information containing brochures on the soft boards of the classes. Overall it was an interactive activity which created awareness about Counselling and Counselling Cell and related doubts by students were also catered by the trainees

Outcome of the Activity:

The students of different departments of the University acquired knowledge about the Counselling Cell and the counselling services it renders. Apart from that there was an awareness created about counselling and how students can benefit from them through this interactive activity. Besides that, an attempt to bring down the stigma related to mental health and counselling which prevails in the society was made.

Feedback report of the event:

Following the event, there were new registrations reported in the Counselling Cell by the students facing different kind of issues. There was a positive feedback from University students while interacting with the PDCP trainees. Also the students became aware about the effects and benefits about counselling. Some students also reported that the conduction of the activity resulted in removing the prevailing stigma about Counselling as this was creating a barrier to seek help.

Title of the event: Para Sports Meet

Type of Event: Activity

Date: 29st August, 2024

Venue: IIS (deemed to be University) Lawns

No. of Volunteers: PDCCP Trainees, Physical Education Students and NCC Volunteers

No. of Participants: 99 Students of 8 different Special Schools

Objective of the Activity:

- Creating awareness about Counselling and its benefits
- To remove any doubts and stigma related to counselling
- Services provided by the Counselling Cell

Summary/Description:

On 29th August, 2023 the University's Sports Board, NCC, Department of Clinical Psychology and Counselling Cell organized a Para Sports Meet for Special Schools of Jaipur. The event was organized observing National Sports Day and Major Dhyan Chand's 118th birthday. The Chief Guest for the event was renowned Para athlete Volleyball player Pappu Singh. 99 students in total from 8 different special schools of Jaipur participated in the Para Sports meet. During the event, the students from the special schools displayed their talents in many competitions and activities including Hockey, Pyramid with glass, Book balancing, Throw Ball, Coloring Activity, Needle and thread, Patriotic Song Competition and many more. Towards the end, all the participants were honored with medals by the University. Also the school staff who came along with the students were presented with small thank you gifts.

Outcome of the Activity:

The students who participated from the special schools displayed great enthusiasm and sports spirit. They enjoyed the activities and the inter school sports competitions. It was a great opportunity for them to interact and have fun with fellow students of different schools. The volunteers who came along with the schools were very cooperative and encouraged their students to participate in more and more activities. The honorable Guests were a source of motivation for everyone present there by sharing their life achievements. The trainees of PDCCP (Professional Diploma in Clinical Psychology) (2023-2024) had a learning experience by interacting with the students and staff helped them gain understanding and practical exposure to engage with children with special needs.

Title of the event: Regarding Psychometric testing under School Connect Programme

Type of Event: Activity

Date: Bikaner -24th -26th April, 2025

Alwar- 23th -24th April, 2025

Type of Event: Activity

Venue: Alwar, Bikaner

Resource Persons:

- Dr. Monica Sharma Associate Professor, Head Department of Clinical Psychology
- Ms. Nidhi Goyal, Counsellor

Objective of the Activity: Psychometric testing for career counselling of Xth students for further career milestones

Summary/Description: As part of the ongoing school connect programme, psychometric testing and stress management sessions were recently conducted in the cities of Bikaner and Alwar, Rajasthan. The objective of these initiatives was to assess students' psychological well-being, provide career-related insights, and promote mental health awareness among school-going children. In Bikaner, psychometric testing was successfully carried out in four schools: Jain Public School, Seth Tolaram Bafna Academy, Maharani Kishori Devi Girls School, and HP Modi School. It was decided that Jain Public School in Bikaner would conduct psychometric testing for approximately 200 students. Additionally, a few other schools in the region expressed interest in psychometric testing on the spot, indicating a growing awareness of and demand for such initiatives. Meanwhile, in Alwar, Chinar Public School requested a stress management session for its students. Dr. Monica Sharma traveled to Alwar to conduct this session, during which she addressed students on the importance of stress management and shared practical strategies to cope with academic and personal pressures. The session was well-received and emphasized the significance of emotional well-being alongside academic performance.

These initiatives mark a positive step towards integrating mental health awareness and career guidance into the school curriculum. The active participation from both students and school authorities reflects the growing need and acceptance for mental health interventions in educational settings.
